

## WARD IS NOT "RESIGNED" DOG CATCHER

DOG CATCHER DECLARES REPORTERS ARE NOT UP ON SOCIETY MATTERS.

J. W. Ward, municipal pursuer of misbegotten canines (not ex-city dog catcher according to the published report), appeared at the city hall this morning in up a thousand candle power. He wore a tall silk tite that would make any member of the New York 400 waste a second and perhaps a third glance on a suit of new clothes in which creases were conspicuous in the proper place, a "blue" shirt, standing collar and a very attractive necktie. He smoked a giant Afta filler.

Ward is enjoying his honeymoon. His face was wreathed in smiles as he received the congratulations of the city officials. He stated his bride, formerly Lizzie Fields, a domestic employed by the Mandell family, had let him come down town to see the boys, whom he told in strict confidence that this is his third venture upon the sea of matrimony.

"Yo newspapermen navah got dat right 'bout how me an 'Lise got dat weddin' papah at the court house," he declared. "Dat story printed in broken up lankwidge am all wrong. Ye all are not posted on de society doings."

"Edah Byers did the ceremonials last night at Mistah Mandell's an der wur about 150 there in all, includin' de ones what looked frow de windah. As want to say, too, dat Ah have not resigned mah job wif de city."

The silk tie was the wedding gift of the city fire department.

### THE MCKICKERS WILL SOON LEAVE GALLUP

Within a few days William McKicker, who has made this part of New Mexico his home for many years will leave Gallup with his family for the east to make his home there, says the Republican. Mr. McKickers has accepted a responsible position with a Pittsburgh mining company, in which his brother is interested. From some time Mr. McKickers has been connected with the Gallup Fuel company, and was owner in the Union. Mr. McKickers has many friends in Gallup and McKinley county who will be sorry to hear that he is leaving New Mexico for good; he has resigned his position with the Gallup company and will dispose of his property in the city and will leave for his new home within a week or so.

## POLITICS OVER IN THE RIO PECOS COUNTRY

CAPT. BUYAC ENJOINED FROM INTERFERING WITH A RIVAL PUBLISHER.

For the first time in the history of New Mexico an injunction was granted enjoining a newspaper man from interfering with another newspaper man.

Capt. E. P. Buyac, the well known politician and lawyer of Carlsbad and nominee of the democratic party for the constitutional convention from Eddy county, took exception to an editorial in the Carlsbad Argus entitled: "A rig and a pup."

Although the editorial did not mention his name, Buyac went to the Argus office and compelled W. T. Reed, owner of the paper, to sign a written statement as to the authorship of the article and another paper to the effect that he would never use Buyac's name in the Argus again under any circumstances.

Reed in praying for the injunction says a revolver was plainly visible and he signed the papers, as he was in fear of his life. Buyac is the president of the Carlsbad Printing company, which publishes the Carlsbad Current a democratic newspaper.

Judge Pope granted the injunction restraining Buyac from interfering with Reed. The article in the Argus was written by Judge A. A. Freeman, dean of the territorial bar and nominee of the republicans for the constitutional convention from Eddy county. Buyac is wealthy and a southerner. His last bid for public notice was when he recently wrote the mayor of Brownwood, Texas, after the race riots there, saying he would come down there with a hundred cowboys and kill every negro thereabouts. This attracted the attention of President Roosevelt who wrote a biting letter to Governor Hagerman of New Mexico, who in turn wrote a letter to Carlsbad, urging the citizens to hold a meeting repudiating Buyac's utterances. Buyac served with distinction in the Spanish-American war.

## DEEPEST WELL IN COUNTY SUNK BY SANTA FE

DRILLING WILL BEGIN NEXT WEEK. WELL TO BE OVER 2,000 FEET DEEP.

Next week work starts on the Santa Fe's deep well at Gallup, says the Republican. The Mulholland drilling outfit is in place and everything is ready to begin the sinking of what will be the deepest well in this county. The delay in starting this work was caused by the non-arrival of the casing. This well is to be at least 2,000 feet deep and perhaps 2,500 feet, depending on the flow of water.

The well is to be sunk near the round house and it will take several months to do the drilling. Considerable depends on this well, it being understood here that if a large flow is struck there will be an addition to the Gallup shops built by the company and this will become a more important point in the eyes of the Santa Fe than it is.

The discovery of an artesian flow by the city in its well had much to do with the decision to spend a large sum in sinking a railroad well. Mr. Mulholland in speaking about the proposition stated that he is confident that at the depth the Santa Fe is going to sink, a much greater flow will be developed than the city well is now giving. The city well is some 1,100 feet deep, and has been demonstrated within the last month, pumping failed to make an impression on the supply in the Dakota sand stone.

It is also reported that if the Santa Fe well strikes a big flow another one will be sunk here by the company. It is certainly to be hoped that a big artesian flow will be struck in the new

well for should that be the case this vicinity will derive much benefit from the presence of a strong flowing well in this vicinity.

ASK UNIFORM

An official of the Pennsylvania line wrote the governors of all states, urging them to unite in a movement for uniform legislation for the cent fare all over the country. In the replies the governors of eastern states are indifferent, those of the mountainous territory in the west are unfavorable and those of the rest of the country favor the plan.

Commissioner Cockrell has outlined the plans of the Interstate Commerce

commission to be to secure: First, a uniform system of accounting by the railroads; second, a uniform system of classification of freight throughout the United States; third, a uniform schedule of rates, fares and charges; fourth, the performance by the roads of the entire transportation service from the place where freight is received to the point of destination.

## RIO ARRIBA REPUBLICANS STRONG FOR STATEHOOD

IF JOINT MEASURE FAILS DELEGATES WILL SEEK ADMISSION OF NEW MEXICO ALONE.

The republican county convention of Rio Arriba county held at Tierra Amarilla, was a large enthusiastic affair. It nominated delegates to the constitutional convention and unanimously adopted this resolution for their guidance:

"Resolved, That in case the Hamilton statehood act fails to become operative through the adverse vote of the people of either territory the sixty-six delegates elected in New Mexico to the constitutional convention should assemble to form a constitution for the state of New Mexico, and ask of congress immediate admission as a separate state; and the delegates elected for Rio Arriba county are earnestly requested to unite in such action."

The delegates named were: Thomas D. Burns, L. Bradford Prince, J. M. C. Chavez, M. S. Salazar and E. A. Taques.

A strong resolution endorsing Gov. Hagerman and pledging support in his measures of reform, was passed.

The following ticket was nominated: Council, W. G. Sargeant; house, J. Trujillo and P. Walters; probate judge Juan M. Velasco; county clerk, F. D. Luna, Jr.; treasurer, M. A. Gonzales; assessor, P. H. Hill; sheriff, Marciano Sanchez; school superintendent, A. D. Vargas; commissioners, Margarito Hargo, M. R. Salazar. The county will give a large majority to Andrews as delegate.

### POLICE COURT

Must Get a Job.

The young negro, Green, who was arrested for alleged complicity in the skating rink nuisances, must find employment by month or do a stint at the business end of a No. 2 shovel.

In police court this morning Green was asked why he persisted in frequenting the tent rink after he had promised not to do so when he was up for malicious mischief on a previous occasion. He was arrested last night behind the tent rink at a late hour and lodged in the city jail. He had made a threat to "get even" with the rink management for causing his arrest, the police say.

"I'm going to give you ten days at labor on the streets," said Judge Crawford, "but I'll suspend the sentence if you will get a job and go to work. If you are found idle though you will be taken up immediately, now find a job and get busy." Green said he had a job at a local saloon as porter.

Minstrel Gets Sixty Days.  
Will Hardman, a mulatto, was arrested last night on complaint of G. W. Jackson, a hardworking old negro. He was given sixty days in jail for vagrancy.

Hardman lives by his wits when he is not otherwise employed. He is sometimes of a singer. A favorite ditty he serenades with declares "Any Old Place I Lay My Count Is Home, Sweet Home To Me."

"Take my advice and hunt another climate when you get out," was Judge Crawford's admonition to Hardman, after sentencing him.

### COZY HOME.

The discovery of a new wick principle—so effective and yet so simple that it's a wonder no one thought of it before—has so revolutionized the manufacture of oil heaters and lamps that explosions, smoke and smell, caused by imperfect wick arrangement, may safely be regarded as things of the past.

This new wick attachment is to be found on the Perfection Oil Heater. Interesting tests show that, although the heater gives intense heat, the wick cannot be turned too high or too low—absolute safety thus being assured. One other feature which is worthy of mention is the smokeless device which prevents all smoke and odor. The portability of the heater also commends it for general household use. Heater is very light and can be carried about. Its simple operation, usefulness in heating water and warming cold rooms make it a most handy and useful article in any home. This heater is so far superior to other oil heaters, and is of such price that its universal adoption is but a matter of time.

The Rayo Lamp, which is made by the manufacturers of the Perfection Oil Heater, is without doubt the best lamp for all-round household use. It is equipped with the latest improved burner, and gives a bright, steady light at small cost. Suitable for any room, whether library, dining room, parlor, or bedroom.

The Perfection Oil Heater and the Rayo Lamp form a combination that for real home comfort cannot be equalled. When consideration is taken of the simple operation of both heater and lamp, their absolute safety, the intense heat generated by the one, and the bright and steady light given by the other—all without smoke or smell—their value in any home, large or small, can be somewhat appreciated. Sold by all good dealers.

# What You Pay

For common beer—usually—will buy Schlitz beer, if you ask for it. The purity costs you nothing, yet it costs us more than half the cost of our brewing.

Purity means healthfulness—freedom from germs. It means a clean beer, filtered and sterilized. It means an aged beer—aged until it cannot cause biliousness.

That is what Schlitz beer means to you.
